Furniture & Interior Design E-Commerce

Solving Market Problems with Custom Furnitures

Market Problem

- • Customers struggle to find furniture that fits their style and space.
- • Mass-produced furniture lacks customization.
- • Many buyers are disappointed with limited design options.

Our Solution

- · A platform offering fully customizable furniture.
- · Personalize design, size, and material to fit customer needs.
- · High-quality, tailor-made pieces to match unique styles.

Website Features

- · Custom Furniture Selection
- · Wishlist & Cart Functionality
- · Secure Order Placement
- · Responsive & Fast User Interface
- · Sanity CMS for Dynamic Content Management
- · State Management with Zustand

Future Growth Plans

- · AI-powered furniture customization.
- · Augmented Reality (AR) for virtual furniture placement.
- · Expansion of product range and artisan collaborations.
- · Sustainable furniture options and eco-friendly materials.
